SUMMARY

I am in my penultimate year of study in Computer Engineering and Computer Science with a top academic record, eager to contribute to the software engineering sector. I have a strong interest in mobile development, large software systems, and software development. I am passionate about leveraging my technical expertise in programming, cooperative problem-solving, and software projects to drive impactful solutions. Additionally, my experience in well completion further enhances my understanding of end-to-end project management. Ready to bring my problem-solving abilities and dedication to technology to a dynamic environment

EDUCATION

- **Master of Computer Application** August 2024 - Present
Deccan Education Society Pune University
 - Currently undertaking specialized coursework in software development
 - Relevant Coursework : C, Data structures and algorithms(Python)
- **Bachelor of Business Administration (Computer Application)** April 2021 - April 2024
Savitribai Phule Pune University CGPA - 8.50 | Grade - A+
 - Graduated with a top rank in college
 - Relevant Coursework : Object- Oriented Programming ,Python, JavaScript, Networking,Cyber security
- **Higher Secondary Certificate Examination** March 2021
Amrita Vidyalayam, Pune
Percentage - 66.50%

PROJECTS

Binge - Netflix Clone

- Technology: Built with HTML, CSS, and JavaScript
- Outcomes: Developed a simple yet functional website that provides users with a curated selection of movies and TV shows. Implemented basic web design principles to create an intuitive and visually appealing layout. Enhanced user experience through responsive design and interactive elements.

Predictpro - Stock Price Prediction App

- Technology: Utilized Pandas for comprehensive data handling and NumPy for efficient numerical analysis, leveraging Python for scripting.
- Outcomes: Developed a predictive application for stock price forecasting, enhancing financial market insights. Advanced skills in machine learning and data analysis, demonstrating capability in solving complex financial problems.

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, C, HTML , CSS , Python
- **Frameworks & Libraries:** Bootstrap, React, Next
- **Tools & Technologies:** Git, Firebase ,WordPress
- **Software Development:** SDLC, Debugging, Unit Testing
